

ORBITALA

who dares wins

PRODUCT: TADA

Chemical name: Tetra Acetyl Hexaaza Isowurtzitane (TAIW/TADA)

Chemical formula: $C_{14}H_{20}N_6O_4$

Particle sizes: according to MIL specs

CAS number: 181940-38-5

Purity: 99%

CHARACTERISTIC:

Characteristics	Specified Value
Appearance	Off white crystalline powder free from grit/particles
Water content % by KF	0.1% max
Melting point °C heating rate 10°C/min in N ₂	290 min
Solubility	Soluble in water
Purity by HPLC	98% min

USES:

Used as a building stone for CL-20
